

May 1<sup>st</sup>, 2018

Dear Calgary Customer:

We have recently been notified of a price increase from one of our partners – Eco-Bag/Performance Waste.

This is due to rising costs of Calgary landfill rates, operating costs, and carbon tax levies.

As a result of these increases, we will be passing on a rate increase of 14% effective June 1<sup>st</sup>. This increase however, will only apply to the FIRST bag sent to an address. The second bag sent to the same address, on the same delivery, will not be subject to the increase.

We greatly appreciate your business, and thank you for your past support of this program.

Feel free to call me with any questions.

Regards,

A handwritten signature in blue ink, appearing to read 'Trevor Martin', with a long horizontal stroke extending to the right.
