December 8, 2020

To our clients,

Over the last six months, we have seen steady increases to our input prices. Up to now, we have delayed passing these through to our clients hoping this was a temporary issue. Because raw metals prices continue to rise, we will be initiating a price increase for this next year. Starting January 15, 2021, we will be applying a 4-6% increase in Epic metals prices.

We deeply value your business and thank you for your patronage.

Sincerely,

A handwritten signature in black ink, appearing to read 'Lance Merrifield', written in a cursive style.
