### To the Customers of FT Synthetics:

Please be advised that FT Synthetics will be implementing a price increase to its price lists effective January 1, 2021.

FT Synthetics has implemented a price increase in response to the inflation cost of raw material, freight, and surcharges. FT Synthetics has been able to keep price increases to a minimum due to continued capacity and efficiency improvements and we will continue to do this. Please note we are also moving towards a Made in Canada product with all our manufacturing in Langley, BC.

Product	Change
Pro-20	2%
Silver	3%
Gold	3%
Hydra	4%
Platinum	3.3%
Platinum HTSA	5.33%
Komodo	4.37%

On behalf of FT Synthetics, I would like to thank you for your loyalty and trust you will understand this increase.

If you have any questions or concerns, please feel free to contact me immediately.

Sincerely,

Gaurav Sandhar | Canadian Sales Manager
