

Price Increase Notice

Dear Valued Customer,

Due to continual increases of our chemicals, packaging, transportation, and other raw material components ICP Building Solutions Group is implementing a price increase impacting only one component insulation and accessories by 5%, and HVLP by 7% effective June 14th, 2021.

We will be distributing updated price pages over the next several weeks. Our goal is to continue to diligently negotiate costs with our suppliers to minimize any future pricing impact to you, our loyal customers. Pre-existing quotes which were issued and have not expired will be honored but extensions will not be granted.

On behalf of the entire ICP Building Solutions Group team, we thank you for your business and appreciate your support.

Sincerely,

Carl Knight
VP Pricing
