PERFECTION SHAKE AND ACCESSORIES INCREASE ANNOUNCEMENT

Dear Mr. Conroy,

The price increases for resin used in manufacturing shake have increased significantly over the last month. We absorbed some of the costs and expected the pricing to level off. Unfortunately, it did not and we have no alternative but to have another increase.

We are sorry for the short notice, but effective with all orders placed on or after March 8, 2021, we are announcing a 12% increase. This is over and above the 8% increase announced in February and taking place on April 12, 2021. We will honor pricing for all orders in house now. However, we cannot accept any bulk or large buys this week.

We appreciate your support and understanding. Your Kaycan sales representative is available to answer any questions that you may have. We look forward to your continued support and appreciate your loyalty!

Sincerely,

Wade O'Reilly

Vice President Retail Sales
