RE: Pricing Announcement - Primex HVAC

To our valued customers:

We continue to experience an unprecedented business environment brought on by COVID-19. This has led to further increases in raw material costs, specifically resin and corrugated cardboard, coupled by a continuous surge in freight and logistical costs. These factors directly impact the cost of manufacturing and packaging our products.

As a result, we need to implement a price increase of 11.75% on all Primex HVAC products. In addition to Menzies absorbing a significant portion of the cost increases, we are also providing extended time to place orders at current pricing. Therefore, the price increase of 11.75% is effective on all orders placed as of November 1st, 2021.

We truly value your business and appreciate your continued support and understanding. To place orders via email please send to hvac@menzies-metal.com.

Sincerely,

STEVE SCHULZ
