

May 28, 2021

To our valued customers,

**Subject:** Price Increase – Effective July 1, 2021

Our resin suppliers have a previously announced increase nominated for May 1st. This increase will be the 6th consecutive increase implemented since December 2020. Continued supply issues at the resin producers and robust demand have solidified this May resin increase. In addition to the unprecedented resin increase we have seen in the last 6 months, we also continue to experience rapidly increasing costs in all other areas that it takes to produce the products Mercury Plastics supplies to you.

**In response to this resin increase and other rising costs, Mercury Plastics will be implementing a price increase of 6%. As we are limited to resin inventories, your sales representative will contact you to discuss your requirements.**

**All orders must call for normal delivery lead times.**

**Mercury Plastics reserves the right to limit order quantities. This ensures consistent quality of service and availability to all our customers.**

Your Mercury Plastics sales representative will be in contact with you to answer any of your questions and advise you of changing market conditions.

We understand the burden these price increases have placed on all of our businesses and thank you for your continued support and loyalty.

Sincerely,

Benjamin Deutsch  
President
