Dear Valued Customers,

Due to the recent implementation of tariffs on aluminum and general market volatility, we have seen a sharp and substantial increase on the aluminum used in our SAGIWALL accessory trims in the last few months. At this time, it is imperative to our continuing business operations that we implement a price adjustment to our SAGIWALL Siding System.

Increases will take effect **November 1, 2018** on the following:

EX WORKS EDMONTON, LIFT BASED & CONTAINER BASED

- *SAGIWALL Accessory Trims* 15%

EX WORKS EDMONTON

- *SAGIWALL Panels*..... 5%

LIFT BASED

- *SAGIWALL Panels*..... 2.5%

Any orders placed prior to November 1, 2018, will be honored at current pricing.

As a result of the increase to the SAGIWALL Accessory Trims, SAGIPER North America will now allow all accessory trims (for both SAGIWALL & SAGIREV systems) to be ordered **by the piece**, in both 12' & 19' lengths.

We thank you for your understanding and your continued support in the sale and promotion of our product lines.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mitch Freire", is written over a horizontal line.

Mitch Freire
