Dear Valued Customer

SWD is implementing a price increase of .10 cents per lb., or as contracts allow, effective March 1, 2021.

Rapid escalation of raw material costs as well as freight costs necessitate the need to make these adjustments.

Your sales representative will contact you to review this in more detail and answer any questions you may have.

We thank you for your business and wish you continued success during these unprecedented and challenging times.

Best Regards,

Alison Scott Bull
VP Sales
