

Dec 8, 2014

It is with great excitement that I would like to announce that Shoemaker Drywall Supplies ("SDS") will soon be expanding our Calgary operations by way of adding a second location. This new facility, located near Glenmore Trail and 52nd Street SE, will provide superior access to Stoney trail, Glenmore Trail and all South end jobsite traffic and deliveries. In conjunction with our existing North end warehouse, we will be very well situated to service your material needs no matter where you are working in the city.

This south location will not differ greatly from our current facility, but the additional square footage will allow us to be much, much more efficient in terms of customer deliveries, pick up's, as well as overall flow of operations. This location will be equipped with all products and services you currently know us for, as well as allowing us room to contemplate further products and services that will add value to your business.

We have some improvements to do to the space in the coming days to make it completely functional for our needs but will be "open for business" in early 2015. We will be announcing more definitive details in coming weeks.

We would like to thank you for your past and current support and we look forward to being better able to service your future material requirements.

Regards,

A handwritten signature in blue ink, appearing to read 'Ryan Shoemaker', is placed above the printed name.
