

August 5, 2016

WSB Titan is excited to announce the future opening of a new location in the Lower Mainland B.C.

The new facility, located at 96<sup>th</sup> Ave and Harvie RD in Surrey, is 55,000 square feet with 24' high ceilings and allows for drive through loading for both our fleet as well as our customers.

This new space will complement our current "Titan" Coquitlam facility as well as the existing BC Ceilings locations in Langley and Richmond. Once fully operational we will have near triple our existing capacity.

With planned completion of our tenant improvements for late this year we anticipate being fully operational shortly into the New Year.

Thank you for your past and current support, we look forward to servicing your future material requirements.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ryan Shoemaker".
